- Platforms: IntelliJ IDEA, Visual Studio Code ,Antigravity
- Courseworks: Data Structures & Algorithms, Object - Oriented Programming (OOP), Database Management Systems (DBMS), Statistics, Operating System,

PROJECTS

E-Commerce Web Application | React, Spring Boot, MySQL, Spring Security, Okta

- Developed a full-stack E-Commerce platform using react and Spring Boot.
- Implemented product browsing, search, shopping cart, and checkout functionality.
- Integrated Okta and Spring Security for secure user authentication and authorization.
- Designed and managed MySQL database schemas for products, customers, and orders.
- Created responsive user interfaces using Bootstrap for desktop and mobile devices.
- Deployed the frontend and backend on cloud hosting platforms.

OHunter - Job Portal Application | React, Spring Boot, Spring Security, JWT, MySQL

- Developed a full-stack Job Portal application connecting job seekers and employers.
- Implemented JWT-based authentication and role-based access control for Students, Employers, and Admins.
- Built RESTful APIs for job posting, job searching, and application management.
- Designed entity relationships using JPA/Hibernate and MySQL for users, jobs, companies, and applications.
- Implemented application status tracking and secure backend architecture using Spring Security.
- Followed layered architecture with DTOs, exception handling, validation, and repository patterns.

INTERNSHIP

Software Development Intern | Orentes Pvt. Ltd.

- Currently working on **OHunter - Job Portal Application**, a full-stack platform for job seekers and employers.
